

INNO week

Welcome to **InnoWeek-2024**, the **International Week of Innovative Ideas**, a global platform that brings together forward-thinking leaders, entrepreneurs, investors, and policymakers to explore cutting-edge innovations designed to drive sustainable development and tackle global challenges.

This year's theme underscores our commitment to fostering technological breakthroughs that align with the UN's Sustainable Development Goals (SDGs), promoting economic growth, environmental stewardship, and social inclusion.

ABOUT INNOWEEK

Since its 2018 launch, InnoWeek.Uz has become Central Asia's largest innovation forum, held under the patronage of President Shavkat Mirziyoyev. The event draws participants from government, private companies, research institutions, and startups, serving as a key platform for showcasing innovations, forming partnerships, and attracting investment.

KEY HIGHLIGHTS OF INNOWEEK 2024:

Global Networking: Connect with international innovators, policymakers, entrepreneurs, and investors to build partnerships and explore new markets during InnoWeek.

Thought Leadership: Join keynotes, panels, and workshops by global leaders in innovation, sustainability, and economic development, gaining exclusive insights from experts shaping the future.

Marketplace for Ideas: Discover innovative products, prototypes, and research from top companies, universities, and institutions. This space fosters collaboration, idea exchange, and investment opportunities.

Investment & Partnership Opportunities: Connect with global investors and explore funding to scale your projects. InnoWeek is a hub for venture capital, offering growth potential for startups and entrepreneurs.

WHAT TO EXPECT AT INNOWEEK 2024?

- **Sustainable Technologies:** Discover innovations addressing environmental challenges while driving global economic development.
- **Smart Cities:** Explore the future of urban living, where innovation meets sustainability to create intelligent, resilient cities.
- **Artificial Intelligence & Data:** Dive into the world of AI and big data, where industries are being transformed to create more efficient and sustainable systems.
- **Green Energy:** Learn about groundbreaking advancements in renewable energy technologies that are revolutionizing the energy sector.
- **Health Innovations:** Experience the latest medical technologies that promote healthier living and contribute to long-term sustainability.

WHY ATTEND INNOWEEK 2024?

By participating in InnoWeek 2024, you will:

Gain access to a global platform for innovation and sustainability, supported by both the public and private sectors.

Build strategic alliances with government leaders, business executives, researchers, and investors.

Explore investment opportunities and connect with venture capitalists ready to support promising new technologies.

Showcase your own innovative solutions, gain exposure in new markets, and contribute to global progress on sustainable development.
